EDUCATION

Beijing Normal University

B.S. in Computer Science and Technology

Beijing, China

Sep 2015 – Present

- Overall GPA: 3.92/4.00 Major GPA: 3.94/4.00 (rank: 1/64)
- Advised by Prof. Xiaojun Wan, Peking University

The Chinese University of Hong Kong

Exchange Student

Shatin, Hong Kong SAR

Sep. 2017 – Dec. 2017

- Completely funded by BNU (selected out of 100+ applicants)
- Main Course: Computer Networks, Introduction to Operating System, Formal Language and Automata Theory

Ben-Gurion University of the Negev

Summer Exchange Student

Beer-Sheva, Israel

Jul. 2017 – Aug. 2017

- Data Mining and Business Intelligence for Cyber Security Applications Program
- Main Course: Basic and Advanced Methods in Data Mining, Machine Learning-Based Solutions for Cyber Security Problems

PUBLICATIONS

1. F. Chiang, S. Diao, H. Ma, and Y. Wang “Effects of Hands-on Inquiry-Based Learning Using LEGO Materials on the Learning of Eighth-Grade Physics Students”, April 2017, *International Journal of Engineering Education*, vol. 33 (received “Best Paper” award)
2. Y. Sun, M. Fang, X. Wang, and S. Diao “GubaLex: Guba-Oriented Sentiment Lexicon for Big Texts in Finance”, August 2017, *13th International Conference on Semantics, Knowledge and Grids (SKG)*
3. S. Diao, J. Yu, X. Wan “Doc2Poem: Automatic Generation of Chinese Classical Poems for Modern Essays” (in preparation for IJCAI 2019)
4. S. Diao, W. Lei, M. Kan “Neural Dialogue Generation with Semi-Supervision” (in preparation for ACL 2019)

RESEARCH EXPERIENCE

Peking University (Institute of Computer Science and Technology)

Research Assistant to Professor Xiaojun Wan

Beijing, China

Mar. 2017 – Present

Chinese Poetry Generation

- Designed neural network encoder-decoder framework with output restriction to generate Chinese classical poetry for a given essay
- Adopted bilingual embeddings to address the language barrier between modern and ancient Chinese

National University of Singapore (School of Computing)

Research Assistant to Professors Min-Yen Kan and Wenqiang Lei

Singapore

Jun. 2018 – Oct. 2018

Dialogue System

- Proposed a semi-supervised explicit dialogue state tracker for dialogue generation; adopted an encoder-decoder architecture (CopyFlowNet) to represent an explicit dialogue state with a probabilistic distribution over vocabulary space
- Applied posterior regularization to address the scarcity of supervised signal in state span
- Verified effectiveness of our model through extensive experiments on task- and non-task-oriented corpora

Beijing Normal University (School of Educational Technology)

Research Assistant to Professor Feng-Kuang Chiang

Beijing, China

Sep. 2014 – Jun. 2016

Effects of Hands-on Inquiry-Based Learning Using LEGO Materials

- Developed physics instruction method that uses LEGOs to help teach mechanics to middle-school students
- Submitted paper to *4th International Science, Technology, Engineering and Mathematics in Education Conference (STEM 2016)* (accepted, received “Best Paper” award)

Beijing Normal University (Business School)

Research Assistant to Associate Professor Yunchuan Sun

Beijing, China

Jun. 2016 – Mar. 2017

GubaLex: Guba-oriented sentiment lexicon for big texts in finance

- Constructed a specified lexicon (*GubaLex*) for Chinese Guba, a popular stocks-focused forum for individual investors; Developed an auto update module and sentiment classification algorithm for Guba texts
- Submitted paper to *2017 13th International Conference on Semantics, Knowledge and Grids* (published)

PROJECT EXPERIENCE**Education Map**

Advanced Innovation Center for Future Education, BNU, Beijing, China

Software Engineer

Sep. 2016 – Sep. 2017

- Designed mobile app that provides Beijing parents and students with convenient access to educational resources
- Responsible for front-end programming (Java)

Online Bookstore

Beijing, China

Developer

Apr. 2016 – Jun. 2016

- Created an online web application demo to sell students' textbooks
- Built website with HTML5, CSS, Javascript; implemented PostgreSQL to maintain user database

LEADERSHIP EXPERIENCE**Beijing Normal University Intensive Training Program (ITP)**

Beijing, China

Team Leader

Sep. 2015- Jun. 2016

- Talents Program for Innovations, 76 out of 2000 undergraduates
- Studied Leadership, Entrepreneurship Investment, and Management

BRICS National Education Forum

Beijing, China

Volunteer Tour Guide and Interpreter

Oct. 2015

- Coordinated with school staff and guided participants to attend forum
- Independent Volunteer of two Indian professors, guided them to visit places of interest in Beijing, responsible for their arrangements, communicated with them and interpreted everything from Chinese to English

Community-based Summer School Program

ShiMian Village, Sichuan Province, China

Program Leader and Volunteer Teacher

Jul. 2015

- Set overall structure; scheduled daily group tasks and led group work
- Tutored high school students in English; participated in and coordinated peer counseling program, pairing group members with high school students

UNICEF – China Association for Science and Technology (CAST) Adolescent Education Project**Urad Zhongqi, Inner Mongolia, China**

Aug. 2015

Volunteer

- Assisted in implementing team-building activities for adolescents; functioned as peer counselor for high school students
- Conducted interviews and surveys regarding rural adolescents' "life skills"

SELECTED AWARDS AND HONORS

- Outstanding Student of Beijing Normal University (Only 30 in ~2000) 2018
- Runner-up, World Robot Olympiad (WRO), New Delhi, India 2016
- Meritorious Winner, Interdisciplinary Contest in Modeling (ICM) 2018
- First Prize, Mathematical Contest in Modeling, Beijing Normal University 2016
- First-class Scholarship for Academic Achievement (Top 5% in 64) 2015, 2016, 2017
- Merit Student of Beijing Normal University (Top 10% in ~2000) 2015
- Second Place, China Undergraduate Mathematical Contest in Modeling, Beijing Contest District 2016
- Second Place, Beijing Normal University Collegiate Programming Contest 2016
- Outstanding Volunteer Award, Volunteer teaching program of UNICEF 2015
- Excellent Volunteer Award, BRICS National Education Forum 2015

ADDITIONAL INFORMATION**Languages:**

Mandarin (native), English (fluent), Cantonese (intermediate)

Coding:

C/C++, Python, Pytorch, Tensorflow, HTML, CSS, Javascript, Matlab, Java

Computer Skills:

Proficient in MS Office (Word, PowerPoint, Excel), SPSS statistics, Adobe Audition 3.0

Tools:

Vim Latex Linux Windows
