EDUCATION

Beijing Normal University

B.S. in Computer Science and Technology

Sep. 2015 - Present

Beijing, China

- Overall GPA: 3.92/4.00 Major GPA: 3.94/4.00 Rank: 1/64
- Advised by Prof. Xiaojun Wan, Peking University

The Chinese University of Hong Kong

Exchange Student

Sep. 2017 - Dec. 2017

Shatin, Hong Kong SAR

- Completely funded by BNU (selected out of 100+ applicants)
- Main Course: Computer Networks, Introduction to Operating System, Formal Language and Automata Theory

Beijing Normal University

Undergraduate in Educational Technology

Sep. 2014 - Sep. 2015

Major Changed

- Overall GPA: 3.91/4.00 Rank: 1/56

PUBLICATIONS

- [1] F. Chiang, **S. Diao**, H. Ma, and Y. Wang, Effects of Hands-on Inquiry-Based Learning Using LEGO Materials on the Learning of Eighth-Grade Physics Students, April 2017, International Journal of Engineering Education, vol. 33 (received Best Paper award)
- [2] Y. Sun, M. Fang, X. Wang, and **S. Diao**, GubaLex: Guba-Oriented Sentiment Lexicon for Big Texts in Finance, August 2017, 13th International Conference on Semantics, Knowledge and Grids (SKG)
- [3] **S. Diao**, J. Yu, X. Wan, Doc2Poem: Automatic Generation of Chinese Classical Poems for Modern Essays (in preparation for IJCAI 2019)
- [4] **S. Diao**, W. Lei, M. Kan, Neural Dialogue Generation with Semi-Supervision (in preparation for ACM Transactions on Information Systems (TOIS))

RESEARCH EXPERIENCES

Chinese Poetry Generation for Modern Essays

Research Assistant to Professor Xiaojun Wan

Mar. 2017 - Present

Peking University, China

- Designed a neural network encoder-decoder framework with output restriction to generate Chinese classical poetry for a given essay
- Adopted bilingual embeddings to address the language barrier between modern and ancient Chinese
- Conducted experiments to show our model outperformed the state-of-the-art poetry generation methods

Dialogue System

Research Assistant to Professor Min-Yen Kan and Wenqiang Lei *National University of Singapore, Singapore*

Jun. 2018 - Oct. 2018

- Adopted a semi-supervised state tracking mechanism for dialogue generation with posterior regularization to address the scarcity of supervised signal in state span
- Implemented regularization to improve the generation performance and reduced computation complexity
- Verified effectiveness of our model by extensive experiments on task-oriented and non-task-oriented corpora

GubaLex: Guba-oriented Sentiment Lexicon for Big Texts in Finance

Research Assistant to Professor Yunchuan Sun

Jun. 2016 - Mar. 2017

Beijing Normal University, China

- Constructed a specified lexicon (GubaLex) for Chinese Guba, a stocks-focused forum for individual investors
- Developed an incremental update module and sentiment classification algorithm for Guba texts

Effects of Hands-on Inquiry-Based Learning Using LEGO Materials

Research Assistant to Professor Feng-Kuang Chiang

Sep. 2014 - Jun. 2016

Beijing Normal University, China

- Developed a novel instruction method that uses LEGO to help teach mechanics to middle-school students
- Conducted experiments on two eighth-grade classes from junior middle schools in Beijing to verify the effect of our instruction and found that their academic performance improved significantly

PROJECT EXPERIENCES

Education Map

Sep. 2016 Sep. 2017

Software Engineer

Advanced Innovation Center for Future Education, BNU, China

- Designed mobile app that provides Beijing parents and students with convenient access to educational resources
- Implemented the front-end user interface with Java

Online Bookstore

Apr. 2016 Jun. 2016

Software Developer

Beijing Normal University, China

- Created an online web application demo to sell students textbooks
- Built website with HTML5, CSS, JavaScript; implemented PostgreSQL to maintain user database

LEADERSHIP & VOLUNTEER EXPERIENCE

Beijing Normal University Intensive Training Program (ITP)

Sep. 2015- Jun. 2016

Team Leader

Beijing Normal University, China

- Talents Program for Innovations, 76 out of 2000 undergraduates
- Studied Leadership, Entrepreneurship Investment, and Management

BRICS National Education Forum

Oct. 2015

Volunteer Tour Guide and Interpreter

Beijing, China

- Coordinated with school staff and guided participants to attend forum
- Independent Volunteer of two Indian professors, guided them to visit places of interest in Beijing, responsible for their arrangements, communicated with them and interpreted everything from Chinese to English

Community-based Summer School Program

Jul. 2015

Program Leader and Volunteer Teacher

ShiMian Village, Sichuan Province, China

- Set overall structure; scheduled daily group tasks and led group work
- Tutored high school students in English; participated in and coordinated peer counseling program, pairing group members with high school students

UNICEF China Association for Science and Technology (CAST) Adolescent Education Project

Aug. 2015

Volunteer

Urad Zhongqi, Inner Mongolia, China

- Organized team-building activities for adolescents; functioned as peer counselor for high school students
- Conducted interviews and surveys regarding rural adolescents life skills

SELECTED AWARDS

- Top Talent Scholarship for Undergraduate, Beijing Normal University (Only 20 in 2000) 2018
- Runner-up, World Robot Olympiad (WRO), New Delhi, India 2016
- Meritorious Winner, Interdisciplinary Contest in Modeling (ICM) 2018
- First Prize, Mathematical Contest in Modeling, Beijing Normal University 2016
- First-class Scholarship for Academic Achievement (Top 5% in 64) 2015, 2016, 2017
- Merit Student of Beijing Normal University (Top 10% in 2000) 2015
- Second Place, China Undergraduate Mathematical Contest in Modeling, Beijing Contest District 2016
- Second Place, Beijing Normal University Collegiate Programming Contest 2016
- Outstanding Volunteer Award, Volunteer teaching program of UNICEF 2015
- Excellent Volunteer Award, BRICS National Education Forum 2015

SKILLS

Language

Mandarin (native), English (fluent), Cantonese (intermediate)

Programming Languages

Python, C/C++, MATLAB, Java, HTML5/CSS3, JavaScript

Deep Learning Platforms

Pytorch, Tensorflow, Keras

Computer Skills

Git, L^AT_EX, Vim, Linux, Keynote, MS Offices, SPSS statistics, Adobe Audition 3.0
